

Date/Time of presentation	Presenting Author	Abstract ID	Session Type	Session Title	Abstract Title
4/22/22 18:15	Rachel Han	1155773	Poster	Nephrology IV: Potpourri	NADPH Oxidase Complex 2 is Required to Control Experimental Urinary Tract Infection
4/22/22 18:15	Sangeeta Hingorani	91	Poster	Nephrology I: Potpourri	Association of urinary biomarkers and chronic kidney disease in extremely low gestational age neonates (ELGANs)
4/22/22 18:15	Evan Rajadhyaksha	95	Poster	Nephrology I: Potpourri	Gene dysregulation in the kidney of a murine model of preterm birth may provide a link between low nephron number and sodium regulation
4/22/22 18:15	Haejun Ahn	104	Poster	Neonatal Nephrology/AKI I	Acute kidney injury in neonates with hypoxic ischemic encephalopathy based on serum creatinine decline compared to KDIGO criteria
4/22/22 18:15	Kari Borowski	105	Poster	Neonatal Nephrology/AKI I	Acute kidney injury in preterm neonates decreases cerebral tissue oxygenation
4/22/22 18:15	Andrew Schiff	106	Poster	Neonatal Nephrology/AKI 1	Association between overlapping high-risk nephrotoxic antimicrobial exposure in the NICU and future kidney function in adolescents born preterm with very low birth weight
4/22/22 18:15	Daniel Gorski	107	Poster	Neonatal Nephrology/AKI I	Intra-operative renal NIRS monitoring of neonates undergoing cardiac surgery and the association with acute kidney injury

4/22/22 18:15	Paige Condit	108	Poster	Neonatal Nephrology/AKI I	Investigating the association between renal tissue oxygenation and development of AKI in preterm neonates
4/22/22 18:15	Marwa Elgendy	109	Poster	Neonatal Nephrology/AKI I	Kidney replacement therapy in newborn infants diagnosed with acute kidney injury
4/22/22 18:15	Brianna Liberio	110	Poster	Neonatal Nephrology/AKI I	Nephrotoxic Acute Kidney Injury Impairs Alveolar Development in Neonatal Rats
4/22/22 18:15	Maher Abadeer	111	Poster	Neonatal Nephrology/AKI I	Serum Cystatin C is an Early Predictor of Acute Renal Injury in Infants after Cardiac Surgery with Cardiopulmonary Bypass
4/22/22 18:15	Michelle Starr	112	Poster	Neonatal Nephrology/AKI I	Short- and Long-Term Kidney Outcomes in Children with Bronchopulmonary Dysplasia
4/22/22 18:15	Thomas Hays	113	Poster	Neonatal Nephrology/AKI I	The genetic etiology of renal anomalies presenting in the perinatal period
4/22/22 18:15	Shruthi Mohan	114	Poster	Neonatal Nephrology/AKI I	Acute Kidney Injury and Fluid Accumulation Following Neonatal Sepsis
4/22/22 18:15	Marwa Elgendy	115	Poster	Neonatal Nephrology/AKI I	Acute kidney injury in infants with hypoxic ischemic encephalopathy
4/22/22 18:15	Laura Rose	116	Poster	Neonatal Nephrology/AKI I	Renal Saturations and Detection of Acute Kidney Injury in the Preterm Infant with a Patent Ductus Arteriosus
4/22/22 18:15	Thomas Hays	117	Poster	Neonatal Nephrology/AKI I	The prevalence and clinical impact of congenital renal anomalies in preterm infants

4/22/22 18:15	Eveline Staub	118	Poster	Neonatal Nephrology/AKI I	Urine collection in cotton wool balls yields similar concentrations of albumin, creatinine, uromodulin, exosomal proteins, compared to clean catch samples
4/23/22 14:30	Selewski and Steflik		Networking	Neonatal AKI	
4/23/22 15:30	Matthew Harer		Platform Presentations	Neonatal Nephrology	Caffeine discontinuation at a greater post menstrual age is associated with better kidney outcomes at 24 months corrected age
4/23/22 15:45	Michelle Starr		Platform Presentations	Neonatal Nephrology	The Impact of Fluid Balance on Short- and Long-Term Respiratory Outcomes in Extremely Premature Neonates: Results from the PENUT Study
4/23/22 16:00	Emily P. Evans		Platform Presentations	Neonatal Nephrology	Antibiotic Levels in Neonates on Continuous Kidney Support Therapy
4/23/22 16:15	Angela M. Groves		Platform Presentations	Neonatal Nephrology	Effects of photobiomodulation (670nm red light) and caffeine treatment on acute kidney injury in a neonatal animal model
4/23/22 16:30	Michelle Starr		Platform Presentations	Neonatal Nephrology	Acute Kidney Injury, Bronchopulmonary Dysplasia, and Urinary Biomarkers of Angiogenesis in Extremely Premature Neonates

4/23/22 16:45	Esther M. Speer		Platform Presentations	Neonatal Nephrology	Adjunctive Pentoxifylline Suppresses Chemokine and Enhances Interleukin 10 Expression in Renal Tissue of Cefotaxime-Treated Neonatal Mice with Escherichia Coli Peritonitis
4/24/22 10:00		2380	Workshop		The time is now for Neonatal Continuous Renal Replacement Therapy (CRRT): A Case Based Workshop on Neonatal CRRT
4/24/22 15:30	Lilian Kebaya	458	Poster	Neurology 4: Neonatal Neurology Preterm Clinical	3D ultrasound and functional near infrared spectroscopy for bedside monitoring of intraventricular hemorrhage in preterm infants
4/24/22 15:30	Heidi Steflik	18	Poster	Neonatal-Perinatal Health Care Delivery: Epidemiology/Health Services Research - Utilization	Costs Associated with Acute Kidney Injury in Neonates with Patent Ductus Arteriosus: Pediatric Health Information System Database Analysis
4/24/22 15:30	Merline Benny	94	Poster	Cardiology II	Increased TGF- β Contributes to Neonatal Hyperoxia Induced Early Cardio-renal Fibrosis and Systemic Vascular Stiffness in 1 Year Old Rats
4/24/22 15:30	Michelle Starr	50	Poster	Nephrology III: General Nephrology and Dialysis	Kidney Support in Children using Aquadex: A Prospective and Retrospective Registry

4/25/22 10:45	Tahagod Mohamed		Panel Discussion	Preterm Birth and the Life Course: Implications for NICU Follow-through Care	Acute Kidney Injury and Risk for Chronic Disease
